

LAUNCH PLATFORMS

OUR SPACE! YOUR IDEAS!

NavalX workshops and events are used to bring the Department of the Navy (DON), other government, and external communities together in a neutral site to build relationships and networks while supporting collaboration toward common goals.

One of the objectives of the Launch Platforms, such as the physical NavalX location in Alexandria, VA is to lower barriers to entry for Government, Industry and Academia collaboration.

MISSION FUNDED COLLABORATION SPACES

- Trained facilitators in Agile Scrum, Human Centered Design, Lean Startup and Team Building to support unit and organization needs.
- Neutral site to engage with industry and academia.
- Fully operational Maker space (welding, 3D printing, Laser Cutting, & more).

- Ability to support execution of industry engagements such as pitch days or tech demo days. Space to support off-sites, industry days or team building.

We connect experts and solutions to workforce needs and challenges.
